Data Structures and Algorithms  
Expert

## HOBBIES

- Dancing
- Reading
- Fishing
- Photography
- Bike riding

## LANGUAGES

- English

## PERSONAL INFO

- Date of birth: 18 January 2006
- Place of birth: Thiruthuraipoondi
- Nationality: Indian

## PROFESSIONAL SUMMARY

JavaJava web development

## EXPERIENCE

### Senior Web Developer

Infosys, India, Chennai

May 2022 - July 2023

Web development is all about building and maintaining websites or web application-s. As a web developer, I work on both the client-side (frontend) and server-side (backend) of a site to ensure it's functional, responsive, and user-friendly.

On the frontend, I use technologies like HTML, CSS, and JavaScript to create the layout, style, and interactive elements of the website. On the backend, I work with databases, server-side logic, and frameworks like Node.js, Django, or Ruby on Rails to make sure the site performs well and can handle user requests.

I also focus on best practices like version control with Git, ensuring mobile responsiveness, and optimizing for web accessibility so that the site works across different devices and is usable by everyone. My goal is to create seamless, efficient, and secure web experiences for users.

## EDUCATION

Bachelor of Science (BS), Bharadhidhasan University, India, Nagapattinam

2019 - Now

## COURSES

Computer, Bharadhidhasan University

2022
